DURACELL®

Heavy-duty power from a name trusted to deliver the day-in and day-out dependability critical for commercial truck and equipment use. They also have the cycling service capabilities to handle the demanding needs for reserve and accessory power.

A durability enhanced construction and special features, like the secure anchor-bonding of the power producing components, prevent vibration damage to protect the battery's superior performance and life.

Commercial vehicle or equipment owners shouldn't settle for anything less than Duracell's trusted service and heavy duty starting power.

TRUST IS POWER.

Visit www.driveduracell.com to see the entire line of battery solutions for any application need.

FOOTNOTES

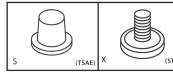

Batteries are maintenance-free calcium grids, except where noted

Batteries manufactured in black polypropylene cases & covers

CA is a reference rating, for comparison only CCA and RC conform to B.C.I. specifications

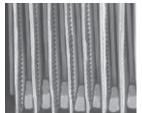

- 12. Hybrid construction
- 17. Includes handle

- 19. Includes lifting ledges
- 21. Anchor locked elements
- 22. Flush manifold vented cover
- 25. With individual vent caps
- Free replacement warranty is 12 months in deep-cycle use and 3 months in full electric vehicle use
- S. SAE "automotive type" post (TSAE)
- X. 3/8" x 16 stainless steel stud posts

HEAVY-DUTY COMMERCIAL POWER

- High engine cranking performance up to 1425 cold cranking amps
- Popular group 31 size fits a vast majority of applications
- Dependable reserve and accessory power
- Rugged vibration resistant construction
- Longer, maintenance-free operation from demineralized electrolyte

Power producing components are securely anchor-bonded to the case to protect against vibration damage on all group

Convenient handles or lifting ledges, on most models, significantly enhance transportation and installation of heavy-duty commercial batteries.

Extended Life Systems

- Special separators prevent life-robbing electrical shorts
- Protects power producing components

Optimized Full-Frame Plates

- Better withstands severe service demands
- Optimizes current transfer

Enhanced Durability Designs

- Fortified current carrying components resist vibration
- Maximizes performance throughout battery life

PROPOSITION 65 WARNING: Battery posts, terminals and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. WASH HANDS AFTER HANDLING.
